Sponsor a Child

**Bethany Pre & Primary School
Kisongo, Tanzania**

Education empowers lives

At Heart to Care Tanzania, we believe quality education has the power to change children's lives, their families, and communities. This is why so many of our generous donors are enthusiastic about sponsorship and why we invite you to sponsor a child too.

Is child sponsorship effective?

When you become a Heart to Care sponsor, you can be sure you're joining a growing organization dedicated to providing a safe and caring educational environment. Sponsorship can be a life-changing opportunity not only for your child, but for *you* as well. Experience the joy of knowing you're genuinely making a difference in a deserving child's life.

Why sponsor a child?

Sponsoring a child is a personal, effective way to show your compassion to a child in need. When you sponsor a child, you provide quality education, build a one-on-one relationship, and give hope for a better future. Your investment offers a lifeline to children and families in need.

What you receive

- A photo and information about the child you have chosen to sponsor
- Yearly updates on your student's academic progress
- Opportunities to correspond directly with your child
- A chance to visit your sponsored child and see the school first-hand

How much does it cost?

Sponsorship costs little more than a dollar a day. Your donation goes directly to your child to provide the following:

- School tuition
- Bus transportation
- Mid-morning porridge
- A healthy lunch

Go to our website to check out current sponsorship costs – and sign up today!
